

# Reviewing Footage - Visual Guide V3.5

Video tutorial at [www.FreedomVMS.com/playback](http://www.FreedomVMS.com/playback)

Searching for Footage on a **selected date** without eMaps

1. Click the Playback icon

2. Select (tick) your cameras

3. Click Search

4. Search selected date

5. Select your date & time range

Tip: If you just wanted to search today's footage, click 'Search selected date'

Another method of selecting a date

Searching for Footage **using eMaps**

1. Click a date

2. Tip: If you do not select a date, 'Today's' date will be selected

4. Click & drag eMap hyperlink to a video tile

**Navigating to a time** on the time line

Each horizontal bar represents a 24hr period from a different camera

Double click the area on the timeline under the time you wish to go to.

Use - + << >> buttons to zoom deeper into timeline.

Example on left takes us to '2:00am' on the timeline on 'C09 Stairwell' camera

You can navigate to an exact time by clicking here & entering a time

Displays current cursor position & Clicking this indicator allows you to navigate to an exact time

Double click over time

**Viewing saved snapshots** (pictures)

3. View snapshots

**Reviewing downloaded footage** using the 'Local Player'

3. Play local video
